## WE ARE ALL VIRTUAL TOURISTS

WEB3 offers the most democratic and freest environment in human history, revolutionizing how we interact with the digital world. At Virtual Tourist, we embrace this ethos wholeheartedly. We see ourselves not just as users, but as pioneers of this new frontier.

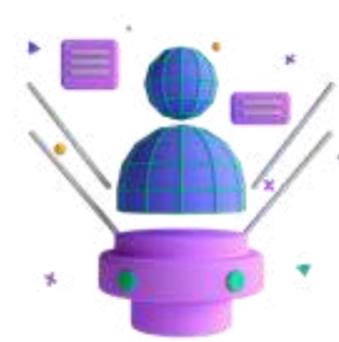

**We are all Virtual Tourists**, driven by a shared passion to explore, learn, and thrive in the realms of blockchain, the metaverse, gaming, crypto, and social media. Our mission is clear: to democratize access to this exciting digital landscape and empower individuals worldwide to embark on their journey through the web3 universe. Join us as we pave the way for a new era of digital freedom and exploration.

# VIRTUAL TOURIST ECOSYSTEM

Virtual Tourist will have four main part

- Virtual Tourist Metaverse
- VT.Finance
- Tourist Cats NFTs
- VT Social

# VIRTUAL TOURIST METaverse

Virtual Tourist Metaverse is a VR gaming platform for learning, socializing, and earning with the Virtual Tourism concept and its first step of Virtual Tourist ecosystem. Virtual Tourist VR App allows travelers to enjoy new places and destinations in metaverse without leaving their homes. People will be able to travel anywhere in the world with only having a VR headset as a virtual tourists. Cultural heritages, holiday sites, holy lands, offices of the your favorite companies and much more. Virtual Tourist's open Beta has been launched on **Oculus store now**.

## ADVANTAGES

- VT will be chat and socialization app of people who like the same cultures and will provide learn to earn concept to reach new users.  
The pandemic was the most important reason for people's virtual tourism demand
- for now, it is game changer event for user experiences. People will show enthusiasm even after the pandemic is over.  
Virtual tourism has a strong influence on people's on-site destination choices and will be valuable marketing tool to promote destinations. Our aim to connect with local authorities around the world the expand business with both city's and platforms benefit.
- VT provides virtually accessibility for everyone especially for the elderly and disabled with limited mobility.  
The concept of virtual tourism can help support sustainability by reducing unnecessary greenhouse gas emissions from transportation and be part of the green energy trend in the future. It will be common trend of fun & learn concept for young people's education.
- We are first blockchain project using Virtual Tourism concept in metaverse.

# VT FINANCE

## What is VT Finance?

VT Finance acts as the native staking platform within the Virtual Tourist ecosystem, serving as the entry point to web3 investment opportunities through launchpad and venture options.

Under the umbrella of VT Finance, both VT Ventures and VT Launchpad play integral roles. VT Ventures is an exclusive platform designed for users who hold our NFTs, granting them privileged access to early investment opportunities within the rapidly evolving crypto landscape. Similarly, VT Launchpad operates as a platform dedicated to supporting web3 projects, facilitating funding for innovative blockchain solutions and technologies seeking market entry. Leveraging our experienced team and trusted advisors, VT Finance delivers superior services, providing unparalleled support to crypto projects, investors, and users.

## Staking

People will be able to claim predetermined rates of VT tokens through staking, providing a passive income stream. Additionally, they will receive special tickets to apply for rewards and launchpads.

### Calculation of Staking:

Staking returns = Initial Staked Tokens \* (1 + (APY / 365))^(Time in Days) For example, if a user have a stake with an interest rate of 2% APR, and deposit 1000 VT for 365 day, at the end of the year he would have earned 20 VT of interest. Staking returns = 1000 VT \* (1 + (2% / 365))^(365 days)

## Rewards and Launchpad

When users stake their VT, they earn tickets, which in turn determine their chances of purchasing on the launchpad. The more tickets a user possesses, the higher the likelihood of securing a purchase. This system not only facilitates ease of purchase for users with larger balances but also extends an opportunity to those with smaller balances. By incorporating this element of luck, a fairer distribution is ensured.

# TOURIST CAT NFTs

VT will have special NFT avatars called "**Tourist Cats**". This NFT collection will be distributed as a complimentary **airdrop** to ecosystem contributors, KOLs and early-level participants, following distinct criteria. This airdrop also will be part of marketing campaign to create brand awareness in crypto ecosystem.

### Metaverse:

These avatars are not only png's also proof of ownership of usage rights for their unique 3D model as avatars in Virtual Tourist VR gaming App.

### VT Finance:

Holders of this NFT's will have be part of VT Ventures community also will have chance to earn extra ticket for launchpad and rewards.

### VT Token:

This collection will have a 5% royalty fee, and 80% of the the royalty revenue will be allocated for VT token buyback program.

VT Social will be a social network that connects people to the traders world. On VT Social's SoFi platform, people will find dozens of blockchain enthusiast, traders and crypto investors, discover the hottest blockchain projects, and explore the latest blockchain new, all-in-one place.

VT Social aims to link all parties in the blockchain world together and create an environment for community trading. Traders will be able to share their technical analysis, opinion or news via platform. They also will be able to connect their VT Social account to VT.Finance and can earn with their crypto fund ideas.

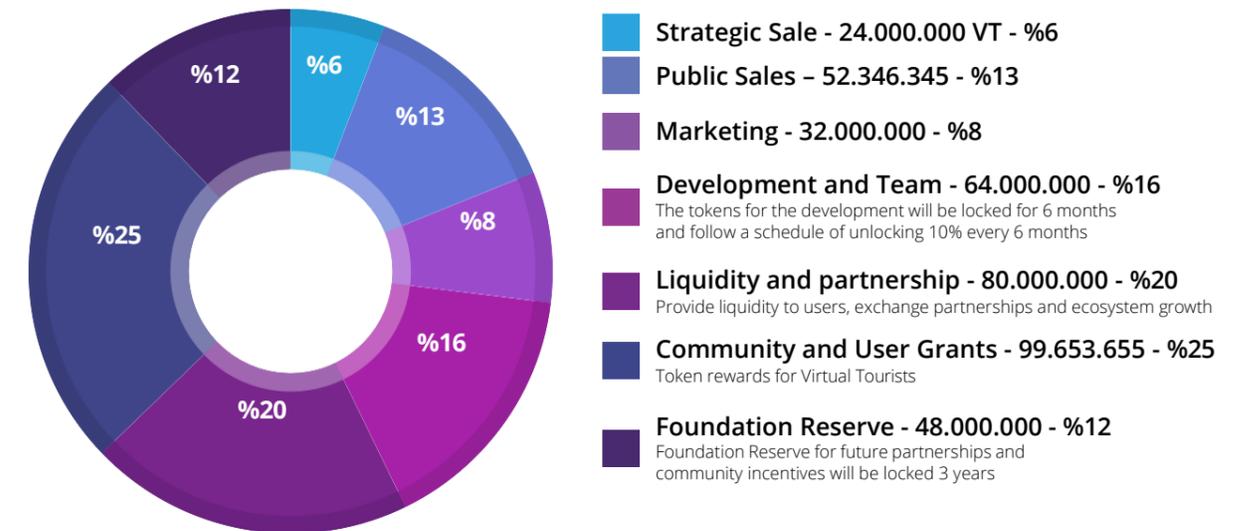

VT Social's innovative SoFi platform will feature AI integration, providing users with personalized portfolio suggestions based on their investment preferences and risk tolerance. Through advanced machine learning algorithms, users can receive tailored recommendations on potential investment opportunities, helping them make informed decisions in the ever-evolving cryptocurrency market

## VT TOKEN – Token Economy and Finance

Virtual Tourist Token **\$VT** is utility token of VT ecosystem. VT Token using advantages of BNB Chain for its operations.

VT Token Total Supply (after burns): **400.000.000**

### Virtual Tourist Metaverse Utilites and revenues

Users who will join the metaverse of **\$VT** will be rewarded with VT Token for their reached achievements in game. It will be used as part of the learn to earn campaign to attract new users to Virtual Tourist. This rewards will be mostly symbolic and won't create high inflation.

Possible sales on VR marketplaces like addition contents.

Real life tourism integrations.

Sale of in-game advertising banners

### VT.Finance Utilities

When users lock their VT tokens on the staking platform, they earn passive income. Additionally, by staking VT tokens, users can acquire tickets for prize draws and participate in launchpads.

Staking reduces the selling pressure of the VT token by incentivizing holders to lock their tokens for a specific period. This action decreases the supply available for immediate sale, promoting price stability. Moreover, staking encourages long-term commitment and loyalty among token holders, fostering a stronger and more dedicated community.

# ROADMAP

## 2023

- Development and launch the beta of **Virtual Tourist Metaverse** VR app in Oculus Store – **Done**
- Blockchain development of website-oculus connection for play to earn achievements. – **Done**
- Designing of **Tourist Cat NFTs** – **Done**
- Start of the development **VT.Finance** – **Pre-development**

## 2024

- Brand partnerships and new travel routes in **Virtual Tourist Metaverse**

# MEET THE FOUNDERS

Virtual Tourist was founded by **Altuğ İşler** and **Oytun Es**, two visionaries with a shared passion for blockchain, GameFi, and metaverse technologies.

**Altuğ İşler** brings a wealth of experience to the team, having founded Kripto Teknik, a prominent crypto media platform known for its comprehensive analyses and commentary since 2017. Prior to his involvement in the cryptocurrency space, Altuğ İşler formerly held the position of head of agency at a leading digital marketing firm.

**Oytun Es** is a seasoned content creator and entrepreneur, serving as a co-founder of the Kripto Teknik YouTube channel, where he has provided valuable insights into cryptocurrencies since 2017. Before his venture into crypto content creation, Oytun served as CEO of an international film production company.

## Continuing Impact

Both Altuğ and Oytun continue to actively contribute to the Turkish crypto community, engaging with their audience through various platforms and media outlets. As esteemed KOLs, they leverage their expertise to inspire and educate, whether through engaging social media content or insightful television appearances.
